- ◉ **Formulation:** Soluble Liquid.
- ◉ **Composition:**
 - Vegetable oil: 40%
 - Total amino acids: 5%
 - Potassium oxide: 4%
 - B complex vitamins: 4000 µg/l
 - Organic acids: 4%
 - Carbohydrates: 10%

Colhit is a non-toxic and biodegradable anti-transpirant that forms a prophylactic shield on the leaves, stems and fruit of plants. It is a product specially formulated for the resistance of plants to adverse climatic conditions as well as the preservation of fruits and vegetables. **Colhit** forms a thin layer of film that reflects excess light, protecting the plant against damage from frost, drought and other adverse weather conditions.

BENEFITS:

- Stops moisture loss during growth, harvesting, sorting, storage, and transportation.
- Helps plants recover quickly from stress by improving resistance to drought, heat & cold.
- Increases the yield of the harvest and maintains the quality of the product.

OBSERVATIONS:

When fruits and vegetables are immersed into **Colhit** solution, it wraps the treated produce in a prophylactic film that, when dried, holds moisture keeping the freshness of fruits and vegetables.

Colhit is an excellent post-harvest treatment product for fruits and vegetables to extend their shelf life.

RECOMMENDATIONS OF USE:

Colhit can be used as:

- Foliar spray to keep the moisture in the plant.
- Immersing fruit and vegetables or just spraying on the harvested fruits to increase the shelf life of the same.
- After shaking well, pour **Colhit** into a clean and dry tank, add water and mix well.
- The use of high-pressure sprayers is recommended to ensure maximum and uniform coverage.

DOSAGE:

- For Foliar Spray mix 400-500 ml of **Colhit** with 100 liters of water.
- Mix 8 ml of **Colhit** with 1 liter of water and dip fruits and vegetables into it for 15 minutes.

COMPATIBILITY:

- **Colhit** is compatible with most pesticides. However, it is good practice to perform compatibility tests locally when the tank is mixed with other products.

CAUTION:

- Shake well before use
- Keep it out of reach of children.

STORAGE:

- **Colhit** should be kept in its original container, properly labelled, well-sealed and stored in a cool, dry and ventilated place.

PACKAGING:

- Pack sizes of 100, 200, 250, 500 ml, 1, 5, 20, 200 and 1000 liters.
