

ESBON

TECHNICAL INFORMATION:

- ◉ **Trade Name:** Esbon
- ◉ **Group:** Organic Fertilizer
- ◉ **Produced by:** Green India Exports Pvt. Ltd.
- ◉ **Appearance:** Dark Brown
- ◉ **Formulation:** Soluble Liquid
- ◉ **Composition:**
 - Fulvic Acid: 40%
 - Organic Matter: 48-52%
 - N: 4%
 - S: 5%
 - Vitamins B Complex: 6000 µg/l

Esbon is a liquid organic fertilizer of plant origin specially formulated for Foliar & Soil application. It is obtained by accurately mixing natural organic substances, which stimulate plant growth. It holds loose and aerated soil and improves water retention.

Esbon potentiates the soil cationic exchange favouring the assimilation capacity of many nutrients. The product is suitable for use in deficient soils in organic matter, sandy, clayey, saline, alkaline and acidic materials.

When the product is applied, immediate visible effects are seen in a very short period of time.

The product components are of non-toxic and non-hazardous nature in all condition environment (temperature, pressure and other parameters).

So **Esbon** is safe for humans, animals and the environment.

RECOMMENDATIONS OF USE:

- Mix 2 liters of **Esbon** in 500 -600 liters of water for foliar application. This amount is sufficient for 1Ha of land.
- It can be used 20 liters per Ha as soil application, drench or drip irrigation.

CAUTION:

- Shake well before use.
- Keep it out of reach of children.

COMPATIBILITY:

- **Esbon** is compatible with all the pesticides and fertilizers.

STORAGE:

- **Esbon** must be kept in its original properly labelled container, well-sealed and stored in a cool, dry and ventilated place.

PACKAGING:

- 100, 250, 500 ml, 1, 5, 20, 200, 1000 liters.
